BB5

The Mosaic BB5 is the result of Zon Guitar's creative partnership with Vital information bassist Baron Browne. The BB5 is Baron's signature instrument and features a medium weight ash body with a maple neck and fingerboard. The bass is powered by two single-coil Duncan pickups and passive electronics.

"With both volume controls up to full the bass is very punchy, allowing me to get a Motown-y tone near the neck or a Tower of Power bottom, yet percussive sound, closer to the bridge." Browne said.

"Those who are fond of a more Pastorious bridge pickup tone, while turning back the front pickup, will be pleased to find a nice low-mid slicing warmth without it sounding too nasal. It's the closest to my beloved Fender Jazz that I've played. It's my Fender and more!" Browne added.
